« Oxi! Basta! Enough! - Build another Europe! »
NO to austerity policies, poverty, TTIP, racism and corruption
YES to solidarity beyond borders

Arrival of the European Marches and Days of Action **15th, 16th & 17th October, 2015 Brussels**

The people said Oxi! No! in Greece. A No! to the cruel and unreasonable demands of austerity and consequent impoverishment. Throughout Europe, hundreds of thousands were in the streets supporting the Greek people – knowing that defending the Greek struggles also means defending our rights all over Europe.

The European elites, in the name of profit and competitiveness, destroy social justice, democracy, climate and use Europe as a playing field for their own interests. They blackmail and humiliate those who dare to resist; they rule with fear, nationalism, racist division and claim that there are no alternatives.

But we build alternatives through our various and cross-linked struggles.

Let's develop our solidarity beyond borders, our strength in this European-wide Oxi! Basta! Enough! Let's build another Europe now!

- Because austerity and debt impoverish us and destroy our social, labour and democratic rights
- Because we refuse poverty and precariousness
- Because free-trade agreements (TTIP, CETA, TISA, ACP, APE, TTP and others) strengthen the power of multinational corporations and destroy the planet and democracy
- Because we are committed against racism and sexism
- Because we denounce corruption and tax havens

Our Oxi! No! is a Yes! to equality, social and labour rights and real democracy !

A Yes! for European debt cuts !

A Yes! to climate justice and to peasant agriculture !

In October, we will march from all over Europe to Brussels, we will surround the European elites and their hidden negotiations during the EU Council Summit, we will debate and demonstrate.

Come and join !
